

Buyers Guide - Dock Systems *Best in Class Dock Finish*

Summit Marine, the oldest hydraulic boat hoist manufacturer in North America, has over 34 years' experience designing and servicing hydraulic boat lifts. With 19 different models, from their 1,000 lbs. PWC lift, to their powerful 24,000 lbs. you can be sure they have the perfect lift for your boat. They now turn their attention to a new challenge - how to beautifully get from shore to boat with grace and style.

Ok, we get it. It's just a dock. Right? And it's just a house on a lake. And it's just a boat out front. But it's not 'just' anything. It's your home. And it's your home on the lake where you live and raise your family. It's your beautiful boat that your beautiful family make those beautiful memories together.

You both work hard to get where you are. And it shows, from the moment you step through the front door until the moment you step out the back door. Continue the party - right down to the water's edge - and beyond. Most likely you already have a 'best in Class' Summit Marine Hydraulic Boat Hoist, let's complete the look with a Summit Marine wood grained all Aluminum Dock. Yes, you read it right.

All aluminum - so it last a long, long time and wood looking, well, because nothing looks better than a real wood dock. Seriously, it's beautiful, Stand back 5 feet or up close 6" - still looks like real wood. The beauty of Wood without the work of wood. Think of it like skipping the kid phase and going straight to grandchildren. Almost.

How's it done?

Our Summit Sublimation process starts with powder coating the decking, then add transfer film printed with (the secret sauce) special inks, apply it to the decking under extreme vacuum, add high temperature that turns inks into gas that penetrates deep into the coated layer. Viola - rich wood grain. See middle photo.

And that's all I know. I don't understand the process - only appreciate the results. Let Summit Marine upgrade those frequent boaters miles to a dock that is designer inspired, and worthy of your lifestyle. Available in Light Aged Gray Oak and European Cherry.
